

## Leicester Social Care and Education

# Provider Hub

**Leicester is now providing its market position information, along with other information for providers, as an online provider hub on the Leicester City Council website, instead of publishing a traditional Market Position Statement (MPS).**

**➔ [Leicester Social Care & Education Provider Hub](#)**

If you provide social care or education services in Leicester, or you are considering developing support, services, or a business in social care or education in Leicester in the future, this hub is for you.

It covers all of the types of information previously included in the MPS, and more, and it covers services for both children, young people and adults.

The information on the hub supports our 5-year plan for commissioning social care and education services that is set out in our [Leicester All-Age Commissioning Strategy 2020-2025](#)
